

Purpose

Provides a generic framework for evaluating technical procurement proposals.

Evaluation Criteria

Parameter	Weight
-----	-----
Technical Compliance	40%
Quality Requirements	20%
Delivery Capability	15%
Commercial Evaluation	15%
Service Support	10%

Technical Evaluation

Technical proposals should be evaluated against the approved specification.

Any deviation from mandatory technical requirements must be documented.

Vendor Comparison

The evaluation team should prepare a comparison containing:

- Vendor
- Offered specification
- Compliance status
- Deviations
- Delivery timeline
- Warranty
- Technical remarks

Approval

Final procurement decisions must follow the organization's applicable procurement authority matrix.
